ONLINE HUSTLES SERIES

08 — Transcription & Captioning

Nigeria-first practical playbook · Expanded 2026 edition

Audio typing · Subtitles · Platform tests · Payoneer

Type what you hear · Caption what you see · Earn per audio minute

by chAs Technologies LLC · FinReels Research

3. Exact Nigeria Setup Order
4. Payment Rails
5. Skills, Speed and Accuracy Targets
6. Platforms Walkthrough
7. Passing Tests and First Files
8. Captioning vs Transcription Differences
9. Africa Expansion Notes
10. Global Reality and Specialisation
11. Tools and Workspace
12. Daily Operating System
13. Scams and Hard Safety Rules
14. 30 / 60 / 90-Day Path
15. Checklists and Field Workbooks

1. What Transcription and Captioning Are

Transcription: convert spoken audio into written text with required formatting (speakers, timestamps if needed).
Captioning/subtitling: timed text synced to video for accessibility or language. Both reward accuracy, grammar, and listening skill more than pure typing speed alone.

Pay is usually per audio minute (not per hour of your clock time). Difficult audio (accents, noise, multiple speakers) pays more but takes longer. Clean audio is faster and builds confidence for beginners.

2. Realistic Earnings 2026 — Nigeria, Africa, Global

Stage	Illustrative	Notes
Beginner after tests	\$50-\$200 / mo	Low volume, learning
Active part-time	\$200-\$600 / mo	Steady files + speed
Strong full-time focus	\$600-\$1,500+	High accuracy + specialisation
Effective hourly	Often \$8-\$20+	Depends on audio difficulty

Rates commonly cited: roughly \$0.30-\$1.00+ per audio minute depending on platform and difficulty. Your real hourly income = (audio minutes completed × rate) / hours you spent. Track both.

3. Exact Nigeria Setup Order

1. Headphones + quiet workspace + reliable power/data plan.
2. Payoneer (and check which platforms accept it vs PayPal limits).
3. Practice typing speed and grammar with free sample audio.
4. Apply to 2-3 platforms that accept Nigerian workers (verify current rules).
5. Pass entry tests carefully — accuracy over speed on tests.
6. Start with easier files; log minutes and quality scores.

4. Payment Rails

GoTranscript is often noted for Payoneer support. Others may use PayPal (restricted for some Nigerian use cases), so confirm current methods before relying on a platform. Upwork/Fiverr transcription gigs can also pay via Payoneer. Always withdraw on a schedule and track FX fees.

5. Skills, Speed and Accuracy Targets

Aim for strong grammar and punctuation first. Typing speed of 60+ WPM helps but accuracy keeps you employed. Learn platform style guides (verbatim vs clean read). Practice with podcasts and YouTube videos you can pause.

6. Platforms Walkthrough

1. GoTranscript

Global hiring; transcription jobs; Payoneer often usable; entry test required.

2. TranscribeMe

Short audio segments; good for building rhythm; check payment options for Nigeria.

3. Rev

Transcription and captioning; competitive tests; verify current eligibility and payout methods.

4. Scribie

Beginner-accessible short files; pay and payment methods vary — confirm before relying.

5. Upwork / Fiverr

Client-posted transcription/caption gigs; set rates; build reviews.

6. HappyScribe / others

Multilingual and AI-assisted workflows; verify geo and payment.

7. Caption-focused clients

YouTube creators, course producers — often via freelance platforms.

7. Passing Tests and First Files

Read the style guide before every test. Use headphones. Do not guess unclear words — follow platform rules for [inaudible]. Submit only when you would accept the quality as a client. First week: prioritise clean scores over volume.

8. Captioning vs Transcription

Captions need timing, reading speed awareness, and sometimes speaker IDs. Transcription prioritises complete accurate text. Many start with transcription then add caption jobs. Software for timing may be platform-provided or free tools for practice.

9. Africa Expansion Notes

English transcription demand is global. African accents appear in some files — treat them as normal professional audio, not inferior. Local language transcription niches exist but are smaller; verify client demand before specialising.

10. Global Reality and Specialisation

Medical, legal, and technical transcription pay more after qualification and NDAs. Do not claim specialised skills without training. General clean-read work is the realistic entry path for most Nigerians.

11. Tools and Workspace

Headphones, foot pedal (optional later), text expander for common phrases, dual-language dictionary if needed. Quiet room reduces rewinds. Backup power prevents lost sessions mid-file.

12. Daily Operating System

Set a daily audio-minute target. Alternate hard and easy files to avoid burnout. Log rejection reasons and fix patterns. Take micro-breaks to protect hearing and focus.

13. Scams and Hard Safety Rules

- Never pay for transcription 'job access' or software activation kits sold in groups.
- Do not upload confidential client audio to public AI tools.
- Verify payout methods before investing weeks of work.
- No OTP/BVN sharing.
- Respect NDAs on specialised files.

14. 30 / 60 / 90-Day Path

Days 1-7: Practice + Payoneer + first platform applications.

Days 8-30: Pass tests; complete first paid files; track effective hourly rate.

Days 31-60: Raise volume; add second platform; improve style-guide accuracy.

Days 61-90: Consider captioning track or higher-pay speciality training only if justified.

15. Checklists and Field Workbooks

- Headphones + quiet space ready
- Payoneer verified
- Typing practice baseline recorded
- 2+ platform applications submitted
- Style guide notes saved
- Minutes and earnings tracker created

Field Workbook 1 — Transcription Ops

Log audio minutes completed, clock hours spent, quality score, and net pay. Nigeria power cuts interrupt sessions — plan file lengths accordingly. Track which audio types slow you down so you can practice them deliberately.

Field	Entry
Audio minutes done	_____
Clock hours	_____
Effective \$/hr	_____
Quality score	_____
Hardest issue	_____
Net pay	_____

Quality: style guide followed · speakers labelled if required · unclear audio marked correctly · proofread before submit.

Safety: no paid job-access schemes, confidential audio stays private, verify payouts.

Field Workbook 2 — Transcription Ops

Log audio minutes completed, clock hours spent, quality score, and net pay. Nigeria power cuts interrupt sessions — plan file lengths accordingly. Track which audio types slow you down so you can practice them deliberately.

Field	Entry
Audio minutes done	_____
Clock hours	_____
Effective \$/hr	_____
Quality score	_____
Hardest issue	_____
Net pay	_____

Quality: style guide followed · speakers labelled if required · unclear audio marked correctly · proofread before submit.

Safety: no paid job-access schemes, confidential audio stays private, verify payouts.

Field Workbook 3 — Transcription Ops

Log audio minutes completed, clock hours spent, quality score, and net pay. Nigeria power cuts interrupt sessions — plan file lengths accordingly. Track which audio types slow you down so you can practice them deliberately.

Field	Entry
Audio minutes done	_____
Clock hours	_____
Effective \$/hr	_____
Quality score	_____
Hardest issue	_____
Net pay	_____

Quality: style guide followed · speakers labelled if required · unclear audio marked correctly · proofread before submit.

Safety: no paid job-access schemes, confidential audio stays private, verify payouts.

Field Workbook 4 — Transcription Ops

Log audio minutes completed, clock hours spent, quality score, and net pay. Nigeria power cuts interrupt sessions — plan file lengths accordingly. Track which audio types slow you down so you can practice them deliberately.

Field	Entry
Audio minutes done	_____
Clock hours	_____
Effective \$/hr	_____
Quality score	_____
Hardest issue	_____
Net pay	_____

Quality: style guide followed · speakers labelled if required · unclear audio marked correctly · proofread before submit.

Safety: no paid job-access schemes, confidential audio stays private, verify payouts.

Field Workbook 5 — Transcription Ops

Log audio minutes completed, clock hours spent, quality score, and net pay. Nigeria power cuts interrupt sessions — plan file lengths accordingly. Track which audio types slow you down so you can practice them deliberately.

Field	Entry
Audio minutes done	_____
Clock hours	_____
Effective \$/hr	_____
Quality score	_____
Hardest issue	_____
Net pay	_____

Quality: style guide followed · speakers labelled if required · unclear audio marked correctly · proofread before submit.

Safety: no paid job-access schemes, confidential audio stays private, verify payouts.

Field Workbook 6 — Transcription Ops

Log audio minutes completed, clock hours spent, quality score, and net pay. Nigeria power cuts interrupt sessions — plan file lengths accordingly. Track which audio types slow you down so you can practice them deliberately.

Field	Entry
Audio minutes done	_____
Clock hours	_____

Closing Notes — Accuracy Compounds

Transcription is a skill business: your effective hourly rate rises when accuracy is high and rewinds are few. Nigeria-based workers succeed on global platforms when they pass tests honestly and treat style guides as non-negotiable.

Track audio minutes and clock time from week one. Power and internet stability are operational constraints — plan file lengths accordingly. Never pay for access to legitimate transcription work.

Use this playbook as a field manual. Platforms change rates and eligibility; always verify current terms.
