ONLINE HUSTLES SERIES

11 — Digital Products

Nigeria-first practical playbook · Expanded 2026 edition
Ebooks · Templates · Courses · Selar · Passive sales

Create once · Sell repeatedly · No inventory
by chAs Technologies LLC · FinReels Research
2026-08-10

Contents

1. What Digital Products Are (and Are Not)
2. Realistic Earnings 2026 — Nigeria, Africa, Global
3. Exact Nigeria Setup Order
4. Payment and Delivery Rails
5. Product Ideas That Fit Nigerian Buyers
6. Platforms: Selar, Paystack, Gumroad and More
7. Creating Your First Product Fast
8. Pricing, Sales Pages and Affiliates
9. Africa Expansion Notes
10. Global / USD Product Reality
11. Marketing Without a Huge Audience
12. Daily / Weekly Operating System
13. Scams and Hard Safety Rules
14. 30 / 60 / 90-Day Path
15. Checklists and Field Workbooks

1. What Digital Products Are (and Are Not)

You create a digital file or access product once — ebook, template pack, planner, Notion dashboard, mini-course, prompt library — and sell unlimited copies with automatic delivery. No physical shipping, no stock.

It is **not** passive on day one. Creation, sales page, and promotion are required. Low-quality copied products damage reputation and refunds. Specificity beats generic 'how to make money' PDFs.

2. Realistic Earnings 2026 — Nigeria, Africa, Global

Stage	Illustrative	Notes
First product launch	NGN 0-100k	Depends on audience/promo
Steady local seller	NGN 50k-400k+ / mo	Multiple products + affiliates
Template / pack seller	Variable passive+	Repeat sales after creation
USD global products	\$100-\$2,000+ / mo	Gumroad/diaspora demand

Local ebook/template prices often NGN 2,500-15,000; courses higher. Volume and niche fit matter more than one high price.

3. Exact Nigeria Setup Order

1. Pick one narrow problem you can solve in a short product.
2. Create MVP with Canva/Google Docs (or CapCut for video).
3. Open Selar (or Paystack storefront) + bank details.
4. Write results-focused sales description + cover.
5. Share to warm audience (WhatsApp, communities) before cold ads.
6. Enable affiliates if platform supports it.

4. Payment and Delivery Rails

Selar: strong for NGN and multi-African currencies; automatic delivery; bank payouts. Paystack storefront: simple NGN sales. Gumroad: global USD reach (fees apply). Combine local + global listings when ready. Always test a purchase flow yourself.

5. Product Ideas That Fit Nigerian Buyers

WAEC/JAMB planners, freelance contract templates (local context), naira budget trackers, Canva social packs for salons/churches, CV/media kit templates, small-business SOPs, exam short notes, Notion dashboards for creators. Localise currency, dates, and examples.

6. Platforms Walkthrough

1. Selar

Africa-first; ebooks, courses, templates; NGN payouts; affiliate tools.

2. Paystack Storefront

Simple product links; familiar local checkout.

3. Gumroad

Global creators; USD; higher fee; diaspora reach.

4. Own site + Paystack/Flutterwave

More control after you have demand.

5. Etsy / Creative Market (selective)

Template and design product markets; check seller eligibility.

7. Creating Your First Product Fast

Ship a focused 10-30 page guide or 10-20 template pack. Perfect is the enemy. Include clear instructions and a sample filled example. Design a clean cover in Canva. Name the outcome in the title.

8. Pricing, Sales Pages and Affiliates

Price for value and audience ability to pay. Founder pricing for first buyers can build reviews. Sales page: who it is for, what they get, what changes, FAQ, refund policy if any. Affiliates multiply reach — set a fair commission.

9. Africa Expansion Notes

Selar and similar platforms support multiple African currencies. Localise products per market (currency, school systems, business rules). Mobile-first pages matter.

10. Global / USD Product Reality

Diaspora and global buyers pay USD for well-scoped tools. English clarity and professional presentation matter. Support requests still need response even for digital goods.

11. Marketing Without a Huge Audience

WhatsApp Status and communities, free sample pages, collaboration with affiliates, short demo videos, SEO blog posts that lead to the product. Warm traffic converts better than cold ads at the start.

12. Daily / Weekly Operating System

Weekly: one promo action + support inbox. Monthly: improve product based on buyer questions; add a second related product. Track sales by source.

13. Scams and Hard Safety Rules

- Do not sell stolen or plagiarised products.
- No fake testimonials or guaranteed income claims.
- Clear refund policy if you offer one; honour it.
- Respect Canva and asset licence terms for commercial templates.
- No OTP/BVN sharing with 'store helpers'.

14. 30 / 60 / 90-Day Path

Days 1-7: Idea + draft product + Selar account.

Days 8-30: Launch to warm network; first sales or feedback loop.

Days 31-60: Improve listing; add affiliate programme; second product.

Days 61-90: Bundle offers; light paid promo only if unit economics work.

15. Checklists and Field Workbooks

- Narrow product idea written
- MVP file complete
- Selar/Paystack store live
- Sales description + cover
- Test purchase done
- Promo list of 20 contacts/groups

Field Workbook 1 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry
Units sold	_____
Revenue net	_____
Top traffic source	_____
Refunds	_____
Common buyer question	_____
Next improvement	_____

Quality: clear outcome · usable files · instructions included · honest claims.

Safety: original work only, licence-safe assets, clear policies.

Field Workbook 2 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry

Safety: original work only, licence-safe assets, clear policies.

Field Workbook 16 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry
Units sold	_____
Revenue net	_____
Top traffic source	_____
Refunds	_____
Common buyer question	_____
Next improvement	_____

Quality: clear outcome · usable files · instructions included · honest claims.

Safety: original work only, licence-safe assets, clear policies.

Field Workbook 17 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry
Units sold	_____
Revenue net	_____
Top traffic source	_____
Refunds	_____
Common buyer question	_____
Next improvement	_____

Quality: clear outcome · usable files · instructions included · honest claims.

Safety: original work only, licence-safe assets, clear policies.

Field Workbook 18 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry
Units sold	_____
Revenue net	_____
Top traffic source	_____
Refunds	_____
Common buyer question	_____
Next improvement	_____

Quality: clear outcome · usable files · instructions included · honest claims.

Safety: original work only, licence-safe assets, clear policies.

Field Workbook 19 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry
Units sold	_____
Revenue net	_____
Top traffic source	_____
Refunds	_____
Common buyer question	_____
Next improvement	_____

Quality: clear outcome · usable files · instructions included · honest claims.

Safety: original work only, licence-safe assets, clear policies.

Field Workbook 20 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry
Units sold	_____
Revenue net	_____
Top traffic source	_____
Refunds	_____
Common buyer question	_____
Next improvement	_____

Quality: clear outcome · usable files · instructions included · honest claims.

Safety: original work only, licence-safe assets, clear policies.

Field Workbook 21 — Digital Product Ops

Log sales, refunds, traffic sources, and buyer questions. Nigeria: WhatsApp remains a primary conversion channel. Improve the product when the same question repeats.

Field	Entry
Units sold	_____
Revenue net	_____
Top traffic source	_____
Refunds	_____
Common buyer question	_____
Next improvement	_____

Quality: clear outcome · usable files · instructions included · honest claims.

Safety: original work only, licence-safe assets, clear policies.

Educational only. Platforms and fees change. FinReels / chAs Technologies LLC do not operate Selar, Gumroad, or payment providers and do not guarantee earnings.

Closing Notes — Specificity Sells

Digital products reward creators who solve one clear problem for one clear buyer. Nigeria-first platforms like Selar remove payment friction for local customers. Global listings can follow once the product is proven.

Ship a small useful product, promote to warm audiences, improve from real questions, then expand. Avoid generic get-rich PDFs and stolen templates.

Use this playbook as a field manual. Fees and platform features change; verify current terms before launch.
