## ONLINE HUSTLES SERIES

### 17 — Web / No-Code

Nigeria-first practical playbook · Expanded 2026 edition  
WordPress · Webflow · Bubble · Freelance sites for SMEs

by chAs Technologies LLC · FinReels Research

2026-08-10

## Contents

1. 1. What Web / No-Code Services Are
2. 2. Realistic Earnings 2026
3. 3. Exact Nigeria Setup Order
4. 4. Tools Stack
5. 5. Getting Clients
6. 6. Delivery and Handover
7. 7. Africa and Global Notes
14. 30 / 60 / 90-Day Path
15. Checklists and Field Workbooks

## 1. What Web / No-Code Services Are

---

You build websites and simple web apps using visual builders (WordPress + Elementor, Webflow, Bubble, Carrd) without traditional coding. Clients are Nigerian SMEs, creators, churches, schools, and startups who need a professional online presence, forms, bookings, or basic stores.

Value is in clear structure, mobile speed, Paystack/Flutterwave integration, and handover documentation — not just pretty pages.

## 2. Realistic Earnings 2026

---

Local simple business sites often NGN 150k-400k+ per project; more complex builds higher. Upwork WordPress work commonly \$15-28/hour for skilled freelancers. Retainers for updates/hosting care add recurring income.

Start with one stack (WordPress or Webflow) until delivery is reliable.

### 3. Exact Nigeria Setup Order

---

1. Learn WordPress.org + Elementor or Webflow on free/local setups.
2. Build 3 portfolio sites (spec or personal brands).
3. Payoneer for international; bank for local.
4. Offer fixed packages: 5-page business site, booking site, landing page.
5. Include training handoff and 30-day bug-fix window.

## 4. Tools Stack

---

WordPress + Elementor (most local demand), Webflow (design-led), Bubble (web apps), Carrd (simple one-pagers).  
Hosting: reliable NG or global hosts. Domain from local registrars. Paystack plugins for payments.

## 5. Getting Clients

---

Local businesses without sites, freelancers needing portfolios, churches and NGOs. Spec redesigns as portfolio. Fiverr/Upwork for global. WhatsApp and LinkedIn outreach with before/after samples.

## 6. Delivery and Handover

---

Written scope, staging site, mobile checks, speed basics, SEO titles, analytics access, training call. Never leave clients locked out of their own property.

## 7. Africa and Global Notes

---

Same skills travel. USD clients care about communication and documentation. Local clients care about WhatsApp support and Naira pricing.

## Service Packages / Rate Logic

---

| Package              | Scope idea          | Pricing note   |
|----------------------|---------------------|----------------|
| Landing page         | 1-3 sections + form | Fixed fee      |
| Business site        | 5 pages + contact   | Project fee    |
| Booking / simple app | Calendars or forms  | Higher project |
| Care retainer        | Updates + backups   | Monthly        |

## Scams and Hard Safety Rules

---

- Never promise 'rank #1 on Google' with a website package alone.
- Client owns domain and hosting credentials.
- Deposit before full build.
- No stolen themes or nulled plugins.
- Written scope and revision limits.

## 30 / 60 / 90-Day Path

---

Days 1-14: Learn core tools + build 2-3 portfolio samples.

Days 15-30: First paid client or first product sale; document process.

Days 31-60: Raise rates or add second offer; systemise delivery.

Days 61-90: Retainer or productised package; case study.

## Launch Checklist

---

- Tools installed and practised
- Portfolio or product MVP live
- Payment rails ready
- Rate card / pricing set
- Outreach list of 20
- Delivery checklist written

# Field Workbook 1 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

## Field Workbook 2 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry       |
|------------------|-------------|
| Work delivered   | <div></div> |
| Hours / units    | <div></div> |
| Revenue          | <div></div> |
| Issues           | <div></div> |
| Next improvement | <div></div> |
| Net              | <div></div> |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

## Field Workbook 3 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 4 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 5 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 6 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 7 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 8 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 9 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 10 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 11 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 12 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 13 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 14 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 15 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry       |
|------------------|-------------|
| Work delivered   | <div></div> |
| Hours / units    | <div></div> |
| Revenue          | <div></div> |
| Issues           | <div></div> |
| Next improvement | <div></div> |
| Net              | <div></div> |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

## Field Workbook 16 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 17 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 18 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 19 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 20 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |
|------------------|-------|
| Work delivered   | _____ |
| Hours / units    | _____ |
| Revenue          | _____ |
| Issues           | _____ |
| Next improvement | _____ |
| Net              | _____ |

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

# Field Workbook 21 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

| Field            | Entry |

## 17 Web / No-Code Ops Sheet 1

Log deliverables, revenue, issues, and next improvements. Nigeria: local payment rails, clear written scope, and reliable delivery build reputation faster than discounts.

| Item         | Notes |
|--------------|-------|
| Deliverables | _____ |
| Hours/units  | _____ |
| Revenue      | _____ |
| Issues       | _____ |
| Improvements | _____ |
| Net          | _____ |

Safety: written scope, honest claims, client-owned assets where applicable.

## 17 Web / No-Code Ops Sheet 2

Log deliverables, revenue, issues, and next improvements. Nigeria: local payment rails, clear written scope, and reliable delivery build reputation faster than discounts.

| Item         | Notes |
|--------------|-------|
| Deliverables | _____ |
| Hours/units  | _____ |
| Revenue      | _____ |
| Issues       | _____ |
| Improvements | _____ |
| Net          | _____ |

Safety: written scope, honest claims, client-owned assets where applicable.

## 17 Web / No-Code Ops Sheet 3

Log deliverables, revenue, issues, and next improvements. Nigeria: local payment rails, clear written scope, and reliable delivery build reputation faster than discounts.

| Item         | Notes |
|--------------|-------|
| Deliverables | _____ |
| Hours/units  | _____ |
| Revenue      | _____ |
| Issues       | _____ |
| Improvements | _____ |
| Net          | _____ |

Safety: written scope, honest claims, client-owned assets where applicable.

## 17 Web / No-Code Ops Sheet 4

Log deliverables, revenue, issues, and next improvements. Nigeria: local payment rails, clear written scope, and reliable delivery build reputation faster than discounts.

| Item         | Notes |
|--------------|-------|
| Deliverables | _____ |
| Hours/units  | _____ |
| Revenue      | _____ |
| Issues       | _____ |
| Improvements | _____ |
| Net          | _____ |

Safety: written scope, honest claims, client-owned assets where applicable.

## 17 Web / No-Code Ops Sheet 5

Log deliverables, revenue, issues, and next improvements. Nigeria: local payment rails, clear written scope, and reliable delivery build reputation faster than discounts.

| Item         | Notes |
|--------------|-------|
| Deliverables | _____ |
| Hours/units  | _____ |
| Revenue      | _____ |
| Issues       | _____ |
| Improvements | _____ |
| Net          | _____ |

Safety: written scope, honest claims, client-owned assets where applicable.

## 17 Web / No-Code Ops Sheet 6

Log deliverables, revenue, issues, and next improvements. Nigeria: local payment rails, clear written scope, and reliable delivery build reputation faster than discounts.

| Item         | Notes |
|--------------|-------|
| Deliverables | _____ |
| Hours/units  | _____ |
| Revenue      | _____ |
| Issues       | _____ |
| Improvements | _____ |
| Net          | _____ |

Safety: written scope, honest claims, client-owned assets where applicable.

## 17 Web / No-Code Ops Sheet 7

Log deliverables, revenue, issues, and next improvements. Nigeria: local payment rails, clear written scope, and reliable delivery build reputation faster than discounts.

| Item         | Notes |
|--------------|-------|
| Deliverables | _____ |
| Hours/units  | _____ |
| Revenue      | _____ |
| Issues       | _____ |
| Improvements | _____ |
| Net          | _____ |

Safety: written scope, honest claims, client-owned assets where applicable.
