19 — Ecommerce

Nigeria-first practical playbook · Expanded 2026 edition

Stores · Paystack · Logistics · Social commerce · Inventory discipline

by chAs Technologies LLC · FinReels Research

2026-08-10

Contents

- 1. 1. What Ecommerce Means Here
- 2. 2. Realistic Outlook 2026 Nigeria
- 3. 3. Exact Nigeria Setup Order
- 4. 4. Platforms
- 5. 5. Logistics and COD Reality
- 6. 6. Marketing and Retention
- 7. 7. Africa / Global
- 14. 30 / 60 / 90-Day Path
- 15. Checklists and Field Workbooks

1. What Ecommerce Means Here

Selling physical or digital goods online with order management, payments, and fulfilment. Channels include Instagram/WhatsApp commerce, independent stores (WooCommerce, Shopify, local platforms), and marketplaces.

Success depends more on product-market fit, trustworthy delivery, and unit economics than on having the fanciest theme.

2. Realistic Outlook 2026 Nigeria

Social commerce remains huge. Independent stores win when catalogue, payments, and logistics are professional. Margins must survive payment fees, delivery, returns, and ads.

Start lean: validate on social before heavy platform spend.

3. Exact Nigeria Setup Order

1. Niche products with clear buyer and margin.
2. Supplier or stock plan; sample quality.
3. Paystack/Flutterwave merchant account.
4. Storefront or structured WhatsApp catalogue.
5. Shipping partners (GIG and similar) + transparent fees.
6. Returns policy aligned with consumer expectations.

4. Platforms

WhatsApp/Instagram for demand; WooCommerce or Nigeria-friendly store tools for ownership; Shopify when global features justify USD fees. Paystack is standard for NGN checkout.

5. Logistics and COD Reality

Delivery reliability is brand. Factor shipping into price. Pay-on-delivery increases risk if you already paid suppliers — prefer prepaid or trusted COD partners with clear rules.

6. Marketing and Retention

Content, customer service, repeat offers, referral incentives. Track cost to acquire a customer vs lifetime value. Do not scale ads on broken fulfilment.

7. Africa / Global

Pan-African payments and logistics differ by corridor. Diaspora sales need clear international shipping quotes. Compliance and product claims must be honest.

Service Packages / Rate Logic

Package	Scope idea	Pricing note
Social catalogue	WhatsApp/IG + payment links	Low fixed cost
Independent store	Full catalogue + checkout	Platform fees
Hybrid	Social + store	Common path
Marketplace	Jumia etc.	Commission tradeoff

Scams and Hard Safety Rules

- Accurate product descriptions and photos.
- Honest delivery timelines.
- Do not sell prohibited or counterfeit goods.
- Secure customer payment data via proper gateways.
- Clear refund/return process.

30 / 60 / 90-Day Path

Days 1-14: Learn core tools + build 2-3 portfolio samples.

Days 15-30: First paid client or first product sale; document process.

Days 31-60: Raise rates or add second offer; systemise delivery.

Days 61-90: Retainer or productised package; case study.

Launch Checklist

- Tools installed and practised
- Portfolio or product MVP live
- Payment rails ready
- Rate card / pricing set
- Outreach list of 20
- Delivery checklist written

Field Workbook 1 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.

Field	Entry
Work delivered	_____
Hours / units	_____
Revenue	_____
Issues	_____
Next improvement	_____
Net	_____

Quality: on-brief · on-time · documented · honest claims.

Safety: written scope, deposits where needed, no fake guarantees.

Field Workbook 2 — Ops Log

Track deliverables, hours, revenue, and lessons. Nigeria: local payment rails and clear scope protect both sides. Improve based on real client or customer feedback.
